is no significant change in the incidence rate of cervical cancer. According io ICMR's estimate, approximately 6.64 lakh new persons could develop cancer in India in 1993.

(d) Under National Cancer Control Programme, emphasis is laid on prevention, early detection and augmentation of treatment facilities. The Government have aiso initiated several measures like education about the ill-effects of tobacco and prohibition of smoking in certain public places.

Human organs transplantation Bill, 1993

*13. SHRI CHIMANBHAI MEHTA:
SHRI P. UPENDRA:

Will the Minister of HEALTH AND FAMILY WELFARE b_e pleased to state;

(a) what are the reasons that rules for the implementation of the Act enti tled as Human Organs Transplantation, Bill, 1993, which was first passed in Rajya Sabha, than in Lok $Sabh_a$ and subsequently was given assent by the President, are not yet framed;

(b) what are the reasons for delay in th_e notification for the implementation of the above mentioned Bill; and

(c) whether the Government ar_e aware of the fact that the traders of Human) Organs are making huge profit due to the delay in the issue of the notification of the aforesaid Act passed by both the Houses of Parliament?

THE MINISTER OF HEALTH AND FAMILY WELFARE (SHRI B. SHANKARANAND): fa) to (c) The Rules Drafting Committee has begun the process of framing the Rules under the Transplantation of Human Organs Act, 1994. As this involves considerable inter-action with experts and study of scientific literature as also iater-Ministerial consultation, it necessarily takes sometime. However, the Draft Rules have since been prepared and are being finalised in consultation with the Ministry of Law.
